

Kit Canopy - Foundation Pot Size (Guide Only)

These foundation sizes should always be checked and confirmed for each project. The size guides below have been based on certain assumptions as noted below the table. Each project will have different conditions and foundation sizes will therefore vary at each location.

Foundation pot sizes (cubed)		Post centres on front view DIMENSION 'B'												
		1000	1250	1500	1750	2000	2250	2500	2750	3000	3250	3500	3750	4000
Post centres from face of wall DIMENSION 'A'	1000	450	450	450	450	500	500	500	500	550	550	550	600	600
	1250	450	450	450	500	500	500	500	550	550	550	600	600	600
	1500	450	450	500	500	500	500	550	550	550	600	600	600	600
	1750	450	500	500	500	500	550	550	550	600	600	600	600	600
	2000	500	500	500	500	550	550	550	600	600	600	600	600	600
	2250	500	500	500	550	550	550	600	600	600	600	600	600	650
	2500	500	500	550	550	550	600	600	600	600	600	600	650	650
	2750	500	550	550	550	600	600	600	600	600	600	650	650	650
	3000	550	550	550	600	600	600	600	600	600	650	650	650	650
	3250	550	550	600	600	600	600	600	600	650	650	650	650	650
	3500	550	600	600	600	600	600	600	650	650	650	650	650	650
	3750	600	600	600	600	600	600	650	650	650	650	650	650	650
	4000	600	600	600	600	600	650	650	650	650	650	650	650	650

These foundation guide sizes are based on the following assumptions which would need to be verified at each site location;

- Wind load = 0.9 kN/m.sq
- Snow load = 0.6 kN/m.sq
- Ground bearing capacity = 50 kN/m.sq
- Concrete grade = C30
- Column height = 2200mm
- Maximum pitch 5 to 15 degrees
